EXHIBITOR GUIDE

Association of Water Agencies of Ventura County (AWA)

Kelle L. Pistone, Managing Director
5156 McGrath St, Suite 104
Ventura, CA 93003
(805) 644-0922
awa@awavc.org
www.awavc.org

AWA has over 48 years of experience operating as the region's largest water communication organization representing Ventura County's ten cities, unincorporated areas, over 156 water systems, agricultural, industrial and water related businesses. AWA is the region's "one-stop shop" for disseminating information, providing a forum for communication, emergency and disaster preparedness and educational consortiums for all levels from policy makers to operators. It is dedicated to its mission statement of "promoting and encouraging cooperation among the entities for the development, protection, conservation and improvement of the total water resources for Ventura County."

Aqua-Metric Sales Company

Hector Gutierrez
(714)588-4229
www.aqua-metric.com

Our team has deployed projects sized from 500 to more than 250,000 service connections in the water, electric, and gas utility marketplace. Our AMI portfolio has continued to expand over the last two decades and our extensive reference list continues to grow with more than 180 project deployments to date.

Camrosa Water District

Donnie Alexander
(805)-910-8725
donniea@camrosa.com
www.camrosa.com

Formed in 1962, Camrosa Water District today serves approximately 35,000 residents in Camarillo, Mission Oaks and Santa Rosa Valley, including California State University Channel Islands. The district delivers about 15,000 acre-feet a year through three distribution systems. Our potable water is a blend of State Water Project water and local groundwater; the non-potable system relies on groundwater and the effluent-dominated Conejo Creek; and our recycled water is produced at the 1.5 MGD Camrosa Water Reclamation Facility. The Round Mountain Water Treatment Plant, our brackish groundwater desalter, offsets our dependence on imported water. Camrosa is committed to building self-reliance by maximizing the use of local water resources and cooperating with neighboring water districts. For more information on Camrosa's diverse water resources, go to www.Camrosa.com

Cannon

Liz Moody
(805) 544-7407
lizm@CannonCorp.us
www.cannoncorp.us

Cannon has provided engineering, surveying, planning and construction management services to municipal clients since our inception in 1976. Our goal is to provide Reliable Responsive Solutions for projects small to large. To do this, we employ a team of professionals including registered civil, structural, mechanical, and electrical engineers; planners; construction managers; and licensed land surveyors.

Channel Counties Water Utility Committee– Chaired by AWA member Bret Sherman–City of Thousand Oaks and Vice Chair Wes Richardson–Calleguas Municipal Water District. This is an AWA committee providing educational webinars, training workshops, and the annual Operator Technology Workshop/Vendor Fair. Nominal annual membership dues support the committee’s efforts in offering information and instruction for water operators, technical field workers, supervisors, board members, and water industry vendors. Additionally, programming provides California State Water Resources Board continuing education contact hours to meet license renewal requirements. Committee membership is comprised of a wide array of water related agencies and businesses. For more information contact awa@awavc.org.

Charles P. Crowley Co.

Tim Berschauer
(626) 856-5656
Tim.berschauer@cpcrowley.com sales@cpcrowley.com
www.cpcrowley.com

We are an exclusive manufacturers' representative for several leading equipment manufacturers in the municipal water and wastewater, industrial, petrochemical, power and OEM markets.

City of Camarillo

Debra Gallegos
